Mr. Larry Hagen
479 North Cline Avenue
P. O. Box 6056
Gary, Indiana 46406

Dear Mr. Hagen:

Re: Violation of Environmental Protection Act

Results from water sampling tests taken at Gary Land Development on August 26, 1976, indicate that discharge from this site is polluting the Grand Calumet River. This is in direct violation of the Environmental Management Act, IC 13-7:

Chapter 4, Section 1(a) No person shall discharge, emit, cause or allow any contaminant or waste, either alone or in combination with contaminants from other sources, into the environment in any form which would cause pollution.

This violation would not have occurred had the construction plan, which calls for the leachate to be collected and trucked to the East Chicago Sanitary District, been followed.

Corrective action must be taken immediately to prevent any further pollution.

Please advise this office within 15 days of the date of this letter what corrective measures are being taken. Any measures taken that are not outlined in the construction plan will require a letter requesting modification of the construction plan permit.

Very truly yours,

David D. Lamm, Acting Chief
Solid Waste Management Section
Division of Sanitary Engineering
AC 317/633-6400
